## Crisis Management Plan

A crisis is anything that has the potential to significantly impact an organisation. In order for organisations to handle an emergency / crisis / disaster situation, every organisation should have a fully developed Crisis Management Plan. The Crisis Management Plan should meet the following key objectives :

- Reduce confusion and tension during an incident
- Demonstrate corporate commitment and expertise
- Control flow and accuracy of information
- Effectively manage resources

Major elements of effective crisis management planning include :

- Identification of a crisis management team
- Assessment of the most likely crisis scenarios
- Development of a crisis management plan document
- Periodic crisis training exercises
- Adherence to crisis communication guidelines
- Continual review and refinement of the plan.

EUM can prepare easy-to-use graphical checklists and plans to guide organisations in times of crisis in dealing with employees, general public and media.
